

The staff at Spring Lake Camp and Retreat is excited about the 2021 summer camp season. We have missed seeing kids growing in their faith this past year and can't wait to gather together again soon.

We are staying up to date on the current camp CDC and ADH guidelines and will update accordingly. Please review the guidelines below to see the steps we will be taking to keep everyone stays safe this summer.

Ways To Reduce The Spread

We are asking that you help us in reducing the spread of COVID-19 while at camp. Health Screenings will need to be performed on campers & volunteers before departing for camp or upon arrival and daily while at camp. You can find a screening tool on the ADH website or we can email one to you. Thermometers will be provided if needed. Spring Lake Staff & Volunteers will have health screenings & temperature checks daily.

We ask that you encourage campers and volunteers to wash hands or sanitize when entering or exiting buildings, before and after meals, before and after participating in group activities. We will have hand sanitizer stations set up around camp and soap & paper towel dispensers in each bathroom.

Masks will need to be worn by campers, volunteers and staff unless participating in the following:

- ***Bathing**
- ***Recreational Activities**
- ***Swimming**
- ***Eating/Drinking**
- ***Sleeping**

Keep it Clean

We will work with groups to set up times for our staff to go into bathrooms and sleeping areas each day to sanitize and ensure soap dispensers/sanitizing stations are in working order. During this time, the dorms will not be accessible to campers or volunteers. We also ask that you help in this process by disinfecting frequently used/touched spaces throughout the day. We have purchased a fogger and will be fogging buildings after each camp or more often if needed.

Visitors

We will not be allowing parents or other outside visitors onto the property this year unless they are picking up a camper. We also ask that campers not be allowed to come and go for outside activities.

Pool

Current directives only allow us to operate our pool at 50% capacity. This leaves our current operating capacity at 60 people at a time in the pool.

Sleeping Arrangements

We have arranged beds in each dorm so that campers are 6 feet apart when sleeping. There are 458 beds between all the dorms (this does not include motel rooms). Layouts will be placed in each dorm that will show head placement to ensure that there is 6 feet of distance between each camper. These can be emailed before camp if needed. Please do not allow campers to push beds together or move beds from their original spots.

Dining

Under current directives, we are only allowed to operate our dining hall at 66% capacity, allowing us to have 330 people in the dining hall at one time. If your group is larger than this amount, we will stagger meal times to ensure we are following guidelines. Please be sure that masks are worn in the dining hall unless campers are eating/drinking.

Meal times will be scheduled the same for all camps this year in order to ensure adequate time to stagger meals, sanitize after each meal and health check all volunteers coming to serve. Please see meal times below:

***Breakfast 8:00**
***Lunch 12:00**
***Dinner 5:00**

We will have times throughout the day that the Snack Shack will be open. These times will be based on free times that are each camp's schedule.

Sick Campers

If a camper is sent home due to illness, please notify a Spring Lake Staff member so that we can sanitize areas that the camper may have come in contact with immediately.

We are excited to see everyone's smiling faces out here again this summer. If you have any questions please don't hesitate to call or email.
